

Max Harrison was a man who fought two wars during his short thirty-six years of life. First, he served in the Army and was deployed to Desert Storm. The second battle he fought began at the age of thirty-two when he received the news that he had Amyotrophic Lateral Sclerosis (ALS) also known as Lou Gehrig's Disease.

From the moment he was diagnosed, Max vowed to educate and raise funds for ALS research and patient services.

He lost his battle with ALS in November of 2006 but with our help his legacy will live on across the U.S.A.
